

CARO CLUB

"This collection goes back to a different time in my life - to nights out in Copenhagen, Paris, and New York, and to watching women leave as the sun came up. There was something so captivating about those moments: the confidence, the clothes, the feeling that the night wasn't quite over. Caro Club is my way of capturing that feeling."

- Caroline Bille Brahe, Founder, Caro Editions

For Spring/Summer 2027, Caro Editions presents Caro Club - a collection celebrating instinct, craftsmanship, and the thrill of making an entrance, even on the way out. Inspired by the moment the night's most talked-about woman leaves the club, it captures the flash of cameras, the walk to the waiting car, embellishments catching the first light of morning, and clothes that become unforgettable in motion.

Set within the world of Caro Club, the collection explores the relationship between fashion and nightlife. It is a place where elegance feels effortless and every appearance carries a sense of anticipation.

The collection continues Caro Editions' exploration of femininity through intuition. Familiar silhouettes are refined with couture-level craftsmanship, balancing elegance with playfulness and ease.

Drawing on women remembered as much for how they dressed as for how they lived, the collection references society dressing, vintage eveningwear, tailoring, and everyday uniforms, all reinterpreted through Caroline Bille Brahe's perspective. Nothing is reproduced; everything is reimaged.

Ikat becomes a recurring language throughout the collection, appearing as prints, embroidery, crystal embellishments, and sculptural details. Bows, pearls, floral embroidery, and sequins introduce moments of humour and richness, while tailoring remains sharp, feminine, and confident.

Capri trousers are paired with sculptural jackets, a flower-tulle coat, and delicate dresses layered with boleros. Couture techniques elevate familiar garments into something unexpected.

Craftsmanship remains at the heart of Caro Editions. Every piece is developed through handwork, vintage sourcing, and careful reconstruction. Embroidery, lace, embellishment, and couture techniques transform familiar garments into one-of-a-kind pieces with a strong sense of character.

The collection is accompanied by a series of collaborations that extend the Caro Editions universe. For Spring/Summer 2027, Caro Editions has reworked eight vintage Levi's® jackets using deadstock Chanel trims. The one-of-a-kind pieces appear on the runway and are exhibited at Levi's® HUS throughout Copenhagen Fashion Week. HEAVENLY JELLY, the Korean footwear label known for its customisable jelly shoes, contributes selected styles featuring its signature Totzpping embellishments. Submission Beauty develops the makeup direction, while Oatly partners across the show and afterparty, bringing its distinctive voice into the experience through curated hospitality and playful guest moments.

Caro Club is ultimately about the hours after midnight - the people, the atmosphere, and the clothes that stay with you long after the night is over. It is a wardrobe built on personality, craftsmanship, and the confidence to leave a lasting impression.

About Caro Editions

Founded in Copenhagen by Caroline Bille Brahe, Caro Editions is built around craftsmanship, intuition, and individuality. Working from its atelier in central Copenhagen, the brand combines couture techniques with vintage materials and everyday references, creating limited collections that feel deeply personal, optimistic, and unmistakably Caro. In 2026, Caro Editions was nominated for the Wessel & Vett Fashion Prize, recognising the brand as one of Denmark's most exciting new voices in fashion.
