La Piscine
Spring-Summer 2027 Show

For Spring-Summer 2027, SKALL presents *La Piscine* in the natural surroundings of the old Frederik's Bastion at Holmen in Copenhagen.

Enveloped by trees and water, the 18th-century gunpowder house is the home for the young Michelin-starred restaurant Aure. The SKALL show takes place in the garden facing the water, a stone's throw from the free town of Christiania and its surrounding untamed nature. The two tie together the spirit of the season – timeless treasures, a bohemian sensibility, and a dialogue between the everyday and the artful. An installation of pennants serves as backdrop for the show recalling associations to ships and life around a harbour.

Being a family company, the SKALL sisters value their relationship to the partners they work with. Bringing together a family-oriented team for the show. The live music act is performed by SKALL's in-house fitting model, debuting singer/songwriter Ida Vermehren. Ida will perform acoustic songs from her new folk-inspired EP that will be released later this year. The models walking the show are all local Danish girls from Copenhagen, family and friends of the house who contribute to a relaxed and warm atmosphere.

The models will be walking in vegan shoes by KEEN, Birkenstock and Ball Pagés. The long-term relationship and collaboration between SKALL and KEEN continue with three new SKALL versions of KEEN's Jasper shoe. This season to be found in light pink, yellow, and a natural melange. The sandals from Birkenstock are all vegan versions of Birkenstocks classic design. A new collaboration that feels like a natural match between two brands of shared values on long-lasting design. The unique sandals from Ball Pagés are a returning favourite to the SKALL show. Handmade in Barcelona from natural materials each sandal is unique and tell a story about tradition and craftsmanship. Values close to the heart of SKALL.

As a finishing touch, the show styling includes unique vintage baskets from the basket maker Steen Hedegaard Madsen's private archive collection, alongside vintage straw hats from Julie and Marie Skall's private collection.
